## “Washington Report”

As California's senior Senator, Dianne Feinstein has built a reputation as an independent voice, working with both Democrats and Republicans to find common-sense solutions to the problems facing California and the Nation. Since her election to the Senate 1992, Senator Feinstein has worked in a bipartisan way to build a significant record of legislative accomplishments helping strengthen the nation's security both here and abroad, combat crime and violence, battle cancer, protect natural resources and secure millions in appropriations for Californians. Senator Feinstein will join us to provide an update on legislation she is working on in Washington and discuss issues that affect Orange County, the State of California and the Nation.
