Facing Our National Economic Challenges

Getting Beyond Federal Rescue Plans and Stimulus Programs

Rescue Packages - stimulus packages – political gamesmanship – are these the most effective answers to the severe economic challenges facing our nation? From his perspective as a member of the House Financial Services Committee, the House Committee on the Budget, and the Joint Economic Committee, Congressman John Campbell will share his thoughts. As a member of the House Committee on Financial Services, Congressman Campbell oversees the entire financial services industry. This includes industry areas such as securities, insurance, housing, and banking. The committee also has an oversight function over the United States Department of Treasury, United States Federal Reserve, and the United States Security and Exchange Commission.

Representative Campbell was elected to Congress in a special election in 2005. He is also a member of the House Financial Services Committee and House Committee on the Budget. Campbell has a Bachelor's Degree in Economics from the UCLA and a Master's Degree in Business Taxation from USC.
