Health Care Reform

A National Priority

“Kaiser Permanente has been an advocate for comprehensive health reform for many years. Health reform should include universal coverage and financing – and should also extend to the way that care is paid for and delivered, as well as the promotion of prevention, wellness, and public health strategies that will improve the health of America.” Dr. Benjamin Chu

Dr. Benjamin Chu, MD, MPH, MACP, has served as president of Kaiser Foundation Health Plan, Inc. and Kaiser Foundation Hospitals in Southern California since February 2005. Kaiser Permanente Southern California includes more than 50,000 employees who work in partnership with the Southern California Permanente Medical Group to care for 3.3 million members through 13 hospitals and 130 medical offices in an area that extends from Bakersfield to San Diego. A primary care internist by training, Dr. Chu possesses extensive health care experience as a clinician, administrator, and policy advocate. He serves on numerous advisory and nonprofit boards that focus on health care policy issues. Dr. Chu received a master's in public health from the Mailman School at Columbia University and his MD degree from New York University School of Medicine.
